Dear Partner

Updated information regarding the current delivery issues

Delivery information are now regularly updated online, also the letters are available for download under this link: www.securiton.com/newsds.

The global shortage on electronic components combined with a high market demand remains challenging. Due to more constant and higher production output, the lead-times on many products could be shortened in the past weeks.

Please allow for a lead-time – ex works – of at least 12 weeks for all products that are not explicitly mentioned in this letter.

Situation SecuriSmoke ASD and SecuriHeat ADW*ASD 531, ASD 532, ASD 533, ASD 535*

The production of all ASD models keeps running at full capacity.

SSD 532-3, SSD 535-3

Optical Smoke Switch

The production of the Smoke Switches has been increased, but lead-times remain long due to high market demand.

ORS 142 all models	28 – 32 weeks
--------------------	---------------

Please always try to order your goods as early as possible and plan for enough lead-time.

Our sales administration team is constantly trying to prioritise orders and is in close contact with our customers. We are seeing improvements in many product lines and are optimistic that the situation will keep getting better week after week.

We sincerely apologise for all the inconvenience this situation is causing you, we thank you for your understanding and patience and we assure you that we do everything to improve the current situation as fast as possible. We will continue to keeping you informed once the situation changes.

Yours sincerely

Securiton AG
